KHADAAN DRISHTI DEMONSTRATION COMPLIANCE DOSSIER

The appointed safety officer reviewed the approved safety management plan. The statutory inspection register and equipment maintenance records were checked. A ventilation survey was completed and the emergency response drill record is attached.

The environmental clearance conditions are tracked in the six-monthly compliance report. Ambient air quality monitoring and water quality monitoring results are enclosed. The progressive mine closure plan and land reclamation progress are current.

Worker training records, the personal protective equipment issue register, and periodic medical examination records were verified for the reporting period.
